

J.D. Nickolas
High-tech Crime Specialist

J.D. Nickolas joined the National White Collar Crime Center (NW3C) in June 2014 and is a High-Tech Crime Specialist. Bringing seventeen years of experience in the private sector, J.D. has assisted with the development of multiple courses, articles, and presentations. His current course projects include Advertising ID, Dark Web and Open Source Intelligence, Virtual Currency, Cellular Records Analysis, Basic Digital Forensic Analysis, and Automated Forensic Tools.

Since joining NW3C, J.D. has attended and instructed over 5,000 hours of high-tech related training and has earned two digital forensics certifications: Certified Forensic Computer Examiner (CFCE) from the International Association of Computer Investigative Specialists (IACIS) and Certified Cyber Crime Examiner (3CE) from NW3C. When J.D. is not instructing or developing NW3C's courses, he conducts high-tech research and provides technical assistance to local, city, state, tribal, and federal law enforcement agencies.
